1. Comment. The Eighth Gds Army units are supplied by the depot in Luenchen-Bernsdorf. With 43 tank cars, the volume of outgoing shipments in March was higher than that of the preceding months, which amounted to 21 tank cars in January and to 30 in February.

2. Comment. The rate of outgoing rail shipments from the fuel depot of the First Gds Army in Radebeul-West continued to be low.

3. Comment. The fact that the fuel depot of the Twenty-Fourth Air Army in Riesa was again mentioned is of interest. No interpretation can be given yet. After the transfer of the bomber corps in the fall of 1953, the depot was only mentioned.

Comment. Most probably, shipments of fertilizer for airfields.

Comment. Probably, medical products for the GDFG Central medical depot in Fuerstenwalde.

Comment. Oil shipments from the East German production for fuel depots of the Third Shock Army and the Second Gds Army.
